READ, CONSIDER, AND PONDER.

1. In the election for President in 1876 the thirty-seven States of this Union will choose 366 electors. Those States in which slavery lately existed will choose 138 of them. The New England States, together with New York, Pesnsylvania, and New Jersey, will choose 113, and the twelve States lying west of Ohio, in which slavery did not exist, will choose the remaining 115. Something is in it. The fear of those 138 votes is confessed, and the necessity of putting them out of the way is plainly set forth. What is to be done?

The nature of the ceremonies to-day subects people to danger. A multiplicity of the best regulated head unsteady; and when a man's judgment is disturbed he is not likely to be a pattern of decorum and politeness.

COMMITTEE. New ORLEANS, December 80 .- The congressional sub-committee, consisting of Messrs. Foster, Phelps, and Potter, to investigate Louisiana affairs, met in a perior of the St. Charles hotel to-day. They decided o confine their investigations to the Returning Board and White League. Messrs. Anderson and Arroye, members of the Returnng Board, and John Ray (Republican), and Frank C. Zacharie (Conservative), counsel for he respective committees before the Returning Board, were examined as to the law and mode of proceeding under it. Nothing new was developed.

At the night session Messrs, Packard, White, and Burke, of Orleans parish, and Knoblack, of Lafourche, were examined. Mr. Packard stated that he knew of the organization of the White League before September 14th; beiteved it extended throughout the State; believed there were from 3,000 to 5,000 white Republicans in New Orleans less in proportion the number of votes than in other portions of the State; believed the colored voters were inthestated-some by threats of violence and others by threats of discharge, efusal to lease lands to blacks, etc.

Mr. Packard stated that be did not believe the Republican State government could maintain itself in this er any other southern State without aid or protection of United States troops; that en election day troops were stationed as follows: One company at each police station, one in Gretna, and one at the Marine Hospital. He consulted with General Emory about the disposition of troops, and the reason they were so disposed was because there was telegraphic connections between police-stations, and the troops could have been concentrated at any point. Mr. White testified as to the registration

and election in his district. He stated that 180 white Conservatives were stricken from stood-swallowed instead of being poured the registration-rolls who were entitled to out on the ground--- are very apt to make vote, and that the authorities refused to strike off the name of several hundred fraudulently registered negroes, although they promised Mr. Knoblack testified regarding the re-

ent registration and election in Lafourche

parish, and stated that there was no intimidating of any kind, and that 120 negroes voted the Conservative ticket. He stated that the Returning Board refused to throw out forty fraudulent votes Conservatives carried the parish nothwithstanding by a small majority; but the

fraudulent votes were also counted for the Freasurer. Major Edward Burke gave an account of the organization of the Conservative party for canvassing the city to verify the registration; that they detected 5,200 fraudulently-registered names. One of the parties had registered in fourteen wards, and sevefive or six times. They succeeded in getting but few of the fradulently-registered strick-

en from the polls. The object of the committee evidently is to investigate thoroughly the recent election, beginning with the registration and ending with the Returning Board. One of the committee stated in conversation to-day that the President had recognized the Legisture of 1872, but not so with that elected in November. They would, therefore, confine their investigations to the late election, which was an open question.
